EXHIBIT A

Project Statement:

Grand Panama needs assistance in controlling common pests in the Panama City Beach resort, including 306 units, common areas, and Tiki bar. The client envisions general pest prevention and control to provide a safe, healthy environment for its' guests, owners, employees, and contractors; and control of pests that would provide a potential hazard to property, people, and equipment.

Quarterly Service Program:

- Targets the outside areas where pests live and seek harborage
- Interior service provided using baits, monitoring stations, and products applied in cracks & crevices
- Exterior service provided on each visit targeting the exterior perimeter and interior treatment to units, common areas, and Tiki Bar.
- Cobweb dusting to 14-foot heights to reduce spider populations and remove unsightly webs.
- Retreats provided at no additional costs for covered pests on the weekly service date.
- Visits made to the property on a weekly basis. (4 times a month)
- Partial areas to be treated weekly (based on a 4-week month) so that all required areas are treated on a quarterly basis at a minimum

Service Schedule:

Florida Pest Control agrees to provide Quarterly Service for the complex by making 4 visits to the property each month. Four times a month, a Florida Pest Control service representative will make a visit on a predetermined date and time, unless determined by management that another date and time should be used. Reported pest sightings will be visited first to determine if additional treatments are necessary. Our service will include 4 scheduled visits **to the property each month (a month will be considered 4 weeks)**. Our service representative will provide service on the interior of units, common areas, and exterior of building, including Tiki bar.

Target Pests:

Florida's subtropical climate is a haven for a variety of insects and pests. The most common general household pests are those that are most seen by the tenants. Our Quarterly General Household Pest Control Service Program will target the following common pests: **Ants, Roaches, Silverfish, Millipedes, Centipedes, Earwigs, Spiders, Scorpions, Mice, Wasps, Fleas, Ticks, Mice, Rats, Gnats**, and a variety of other unwanted guests.

BRANCHES:

• Crystal River • Daytona Beach • Ft. Walton Beach • Jacksonville South • Jacksonville West • Lake City • Milton • Ocala • Orlando • Palatka • Panama City • Pensacola • Starke • St. Augustine • Tallahassee • Winter Haven • Leesburg • Kissimmee

Labor, Fees, and Costs:

- A service invoice will be produced at the rate of \$325.00 per month plus tax for services provided to control targeted pests unless additional service is requested by Grand Panama and agreed upon in advance.
- Upon request, exterior rodent boxes will be provided at a one-time expenditure of \$35.00 each. These will remain the property of Grand Panama. Servicing and trapping is included in the monthly fee.
- This cost includes labor and materials provided by Florida Pest Control. Below lists examples of non-targeted pests that would incur additional costs.

Pests that would include additional service and costs:

- Large yellow jacket/bee infestations are based on the time and labor to eradicate them. The minimum treatment is \$150.00.
- Wood destroying organisms Subterranean Termite treatment will be based at \$5.00 per lineal foot. Drywood termite fumigations are based on cubic feet and degree of difficulty. A spot treatment for either termite is based on the size and severity of the treatment area.
 - Bedbugs: Liquid treatments will be provided based upon unit size at the rates listed below:
 - 1 bedroom \$200
 - 2 bedroom \$250
 - 3 and 4 bedroom \$300
- Bedbug proof covers for beds are available to protect mattresses at an additional cost.

Company Info:

In 1949 Florida Pest Control and Chemical Co. opened its doors in Gainesville, FL. Today, we proudly serve all North and Central Florida with 20 branch offices. With the support of a loyal client base, we have grown into one of the largest independently-owned pest control companies in the country. We are proud members and active supporters of both the Florida Pest Management Association and the National Pest Management Association.

All technicians go through an extensive criminal background check, MVR, and drug screening before they are hired. They are thoroughly trained and are continuously educated throughout the year.

Florida Pest Control and Chemical Co. is a full-service pest control company

Florida Pest Control is a full-service pest control company which offers a wide variety services for all your pest control needs:
