Grand Panama Beach Resort Board and Association Management.

We sincerely appreciate this opportunity to submit our proposal to provide professional security services to Grand Panama Beach Resort .

Dynamic Security places great emphasis on building long-term, mutually beneficial relationships with our clients. We provide exceptional security services to public and private facilities from practically every industry. These services are supported on a local, regional and corporate basis by experienced managers of all disciplines.

In business since 1940, Dynamic Security has never been bought or sold. We remain a privately held, American owned, family operated company. Our corporate management team (including the owner) is based in Muscle Shoals, AL. We are streamlined and focused on supporting our employees and customers. Our relationships are built on a foundation of integrity and dependability. We respect our employees and customers. In today's security market there are large national and international companies consistently buying up privately held security firms often times leaving their customers and employees wondering who their security provider really is and what further turnover and operational changes are coming. Poor service follows confusion. Avoid the confusion and poor service, choose Dynamic.

We are honored to be considered as your contract security service provider. Please be assured we will work hard to exceed your service expectations.

Kindest regards,

Lance Hutchison

Section 2: Screening and Placement

Dynamic is committed to hiring, training, and retaining only the best security officers. The first step in this commitment involves the screening of applicants for employment. Dynamic uses the following pre-employment selection tools for hiring security officers:

- ▶ Standard Employment Application
- ▶ Security Officer Questionnaire
- ▶ Prior Employment Verification
- ▶ Background Investigations

Dynamic follows the steps listed below in selecting and placing employees:

STEP 1 The Application

Dynamic utilizes a standard employment application heavy in written aptitude and reasoning testing as the first step in the screening process. Applicants are also asked to complete a Security Officer Questionnaire in order to gain more knowledge into a person's experience in the security industry. Prior work experience along with educational background information is also gathered during the application process.

The Operations Manager reviews all materials completed during the application process to determine if an interview should be scheduled with an applicant.

STEP 2 The Interview

After careful review of applications, a Dynamic Operations Manager selects applicants for face-to-face interviews. During this process, applicants are asked a series of questions regarding their ability to perform the required job duties along with various situational questions to determine their capabilities and aptitude.

STEP 3 Background Investigations

Dynamic requires extensive background investigations of potential employees. These checks verify past employment, education, driving records, and felony records. All of these investigations follow state and federal guidelines.

Drug Screening & Fingerprinting – Concurrent with background investigations, applicants are asked to submit to drug screening, and in those states in which it is required by law, they are fingerprinted.

STEP 4 Client Follow-Up/ Acceptance

The final step in the screening and placement process is to follow-up with the Client once a Dynamic employee has been placed to ensure that the assignment is successful in meeting or exceeding the Client's needs. If for some reason, the Dynamic employee or employees do not meet the Client's expectations, Dynamic will see to it that the situation is remedied in an efficient and timely manner.

Dynamic is committed to providing training to all security officers which exceeds any government stipulated requirements in all states where Dynamic operates. The following programs and training are designed to ensure job knowledge and to ensure that all Dynamic security officers are properly trained in how to handle a variety of job situations.

PHASE 1 Initial Classroom Training

Dynamic classroom training provides officers with an excellent primer for beginning a career in the security industry. A variety of classroom subjects ranging from access control procedures to an effective patrol round will be taught by a Dynamic Corporate Trainer.

This training consists of 12 topics, presented during a total of eight to ten hours (strike PSTN reference). These interactive training sessions with in-person instruction also include videos, question and answer sessions, and a comprehensive examination at the conclusion. Each security officer must pass this test prior to placement with Dynamic.

The 12 training modules include the following topics:

- ▶ Introduction to private security
- ▶ Role of the security officer
- ▶ Public relations
- ▶ Safety
- ▶ General duties
- ▶ Report writing
- ▶ Emergency situations
- ▶ Patrol methods
- ▶ Legal aspects
- ▶ Fire prevention
- ▶ Communications
- ▶ Code of ethics

Officers that complete the course with a successful test score receive printed certification.

PHASE 2 Onsite Training

Dynamic also provides basic onsite training to its security officers, which is critical to providing excellent service. The length of this onsite training is customized for each Client's needs, however one eight-hour shift is usually the minimum.

Post orders are vitally important to Dynamic's onsite training program. Post orders are developed by combining the Client's desires and expectations with Dynamic's management consultation. All clients approve the Post Orders and then they are reviewed periodically, based on client desire.

Work Sites or Duty Posts which do not elect to utilize the Dynamic Officer Reporting System is supplied with a Post Notebook, which contains Post Orders, Daily Report Forms, Post Log Book, Incident Reports, Schedules, Rules and Regulations, and any other information regarding the Client and/or security operations.

Training on site operations occurs on a continuous basis. In addition, each and every visit by a Field Supervisor or Training Supervisor ensures proper appearance as well as thorough understanding and compliance with Post Order procedures.

PHASE 3 Ongoing Training

Dynamic believes that ongoing continuous training is the key to successful security operations. Therefore, Dynamic maintains a large library of security study materials for ongoing training purposes.

Classes are scheduled on a regular basis and can be tailored for specific Client needs. These training courses are held at Dynamic offices, but can be scheduled at a Client site as well.

Elite Services Division (OFFICER TRAINING CONTINUED)

Recognizing changes in the industry after September 11th, Dynamic Security established its Elite Services Division. This program is populated with thoroughly screened, highly trained security professionals recruited from various Federal and State law enforcement and military agencies. In addition to the high standards in place for our unarmed officers, candidates desiring entry to our elite program must have a minimum of four years experience as:

- ▶ Former State Law Enforcement or Federal Agent
- ▶ Former Military (Military Police or Special Forces, etc)
- ▶ Former Corrections Officer
- ▶ Criminal Justice/Law Enforcement Degree

Our Elite Services are employed in a multitude of client scenarios from armed response to natural disasters such as Ivan, Dennis, Katrina, and Rita, to armed personnel and law enforcement assigned at Department of Defense installations. Our approach to providing armed security remains:

1. Hire exceptionally qualified applicants for our Elite Services Division with skill sets and experience that exceed the requirements of our clients.
2. Train, certify, and re-qualify our Elite

officers to the highest standards with our comprehensive in house training program.

3. Match the Elite Officer to the specific job location and the post duty requirements, parallel to their individual skill sets and abilities.
4. Follow-up on the officers placement, training, and job performance

Recognizing the risks of improperly screened and poorly trained armed security officers, Dynamic has established a successful and professional in-house armed security officer training program. For quality control, we never rely on a third party trainer to administer armed security training to our employees. Dynamic Security employs full-time management level employees who are certified armed trainers to instruct a comprehensive security and firearms curriculum. Our philosophy of the team approach of instruction allows students to gain knowledge from a much broader spectrum of expertise than they would gain from a single teacher. Our management level instructors have years of experience in security, law enforcement, military, executive protection and firearms and all are State Certified Trainers in security officer training as well as Certified NRA Handgun Instructors.

Classroom Training – Dynamic’s classroom firearms training provides officers with “hands-on” professional training to perform the duties as an armed security officer. Course presentation consists of lecture, short videos, practical exercises, and written evaluations. (Forty hours firearms Training)

The 18 training modules include the following topics:

- ▶ Introduction to Firearms

- ▶ Presentation from a Holster, Review
- ▶ Ammunition/Handgun/Shotgun Malfunctions on the Range

Continuing Firearms Training – As part of our endeavor to further enhance the training and experience of our security personnel, Dynamic has also initiated a secondary block of firearms instruction. This training, which occurs after completion of the basic course of firearms instruction, allows Officers who have proven proficient in the handling and use of firearms to further augment their abilities. The training also prevents accidental shootings caused by adverse conditions.

- ▶ Rules for the use of force to prevent unauthorized access through the ACP to the Installation
- ▶ Installation access control procedures IAW local SOP
- ▶ Installation unique inspections requirements and techniques
- ▶ Proper implementation of Random Anti-terrorism Measures and Procedures (RAMP)

Section 4: Transition Plan

Phase-In /Phase Out Plan

The team will begin the phase-in period immediately after contract award. We anticipate conducting individual site visits at each installation to gain familiarization with the posts, the personnel and staffing requirements, procedures, and the individual task orders. These important site visits enable us to gain first hand knowledge of our client's expectations, post locations and procedures, training fulfillment and staffing shortages to begin the staffing phase requirements. Upon full completion of the tours, hiring, equipping, placing and training of our personnel, we will be at full performance at the completion of the phase-in period.

It is imperative that we become thoroughly familiar with installation specific work requirements and procedures (task orders) to finalize the development of necessary post orders and work instructions. Doing so is vitally important to match our employees skill sets to the demands of the job assignment. Schedules are prepared, with all the individual assignments and work hours detailed therein.

Incumbent Personnel Transition

It is commonplace in the industry, with the selection of a new provider to retain a number of employees from the existing contractor when their skills, dedication, and performance have proven invaluable to the customer's operation. We have extensive experience in assuming security responsibility from other organizations, while maintaining the integrity of the client's security program as well as minimizing any disruption to

the client's core business operation. Most clients describe our contractual transitions as "seamless" and we take great pride in providing a "turn-key" management role in relieving the worries and concerns of change. Our team will provide personnel for training in key operations, obtaining licenses and permits and certifications, all prior to posting our first officer.

We recognize how integral and important the incumbent security officers assigned to our client are to mission readiness and facility security. To that end, we desire to transition all qualified individuals that our client recommends if the individual is interested in seeks continued employment with our team. After consultation with our client and prior to the commencement of services, we carefully screen potential employees that we feel will be most beneficial for our client and us to retain. We hold ourselves to the highest ethical business practices and at no time will we actively solicit a competitor's employee. However, where we jointly discuss retaining a "key employee" and the employee elects to stay at the client's location, the following is the normal course of action. In the event a potential incumbent applicant does not meet either our or our client's requirements, we will notify our client that the individual is not suitable for continued employment.

The process of hiring incumbent employees follows:

- ▶ Incumbent employees must apply with us at appropriate meeting locations, on-site, or through our web site

- ▶ Candidates must be subjected to our interview, hiring practices, background investigation, and all pre-employment criteria
- ▶ We must verify incumbent's licenses, credentials and documentation
- ▶ Verify compliance with the suitability requirements, medical, psychological, Physical Fitness and the Individual reliability program
- ▶ We will place the incumbent employee on the tentative work schedule at preferred shifts and times (when possible)
- ▶ Arrange for off site hiring, benefit coordination, and orientation
- ▶ Measure for Uniforms and Equipment
- ▶ Await contract commencement while performing duties with existing vendor.

New Hire Personnel/Recruiting

The primary focus in retaining incumbents is to fill the work schedule with as many trained and qualified employees possible. Should there remain voids in the work schedule, then we seek to hire new personnel

meeting or exceeding the selection requirements outlined by our client. Traditional classified ads will run in the local and various outlying newspapers, as well as specialized websites, online applications, and non-traditional recruiting methods to attract highly skilled human resources. Our staffing agencies are expertly gifted in recruiting large numbers of people and subjecting them through the rigors of testing and background investigations. In our effort to recruit former State Law Enforcement officers, Federal Agents, and Former Military, we see these offices as an integral part of the success of an overall staffing strategy. It is our aspiration that only those candidates that pass all the pre-hire requirements, possess adequate credentials, and are qualified to work be allowed access to our client installation for further scrutiny, minimizing security issues.

Our orientation and training will be conducted in our local offices and/or on-site when permitted for all personnel assigned to our client account. All of the new hire security personnel selected for our client account will receive an extensive background investigation. Prior to fulfilling their duties we will use this time to conduct many of the training topics, not deemed as sensitive. Firearms training and qualification, CPR, First Aid and AED, and non-sensitive site specific training can be accomplished awaiting and pending approval from our client's background investigation.

Section 5: Quality Control

Dynamic promotes strong lines of communication between the security team and clients. Standardized reports, which are periodically submitted to the Client representative, are among the tools utilized to accomplish this communication.

Security Officer Inspections *(Weekly)*

Unannounced random checks of Dynamic officers to ensure they are conforming to and are knowledgeable of Dynamic rules and regulations as well as knowledgeable of site-specific duties.

Client Visits *(Monthly Meetings)*

One of the keys to successfully providing superior service is constant communication between the Client and Dynamic. Therefore, Dynamic representatives typically meet on a monthly basis with Clients in addition to any Client requested meetings to review performance and the training

and staffing of the account. A review of the performance of the Dynamic staff compared to the last meeting occurs during each of these visits as well as discussion of any concerns either the Dynamic representative or Client contact may have.

Periodic Client Service Evaluations

Additionally, to ensure quality, customers are given Client Evaluation Forms on a periodic basis to voice their opinions on a wide variety of service elements and provide feedback on Dynamic's performance, which the senior staff reviews immediately, to act on any item of concern. Clients have the capability to visit Dynamic's website,

www.dynamicsecurity.org, at any time to complete a Client service evaluation, which will be forwarded automatically and reviewed immediately by the Dynamic management team.

To whom it may concern:

We have used Dynamic Security Inc. as our security guard service at our Vance Al. facility over a period of years. We are an automotive supplier and a foreign trade zone site that requires detailed security protocols.

We have several U.S. Customs and Border Protection security inspections per year with Dynamic an integral part of our security team. We have found their services to be professional, detailed oriented and I would recommend them for any security service projects you may be considering.

Best regards
